WORK EXPERIENCE

OCT 2021 - PRESENT

InfraSol Group - Graphic Designer

Recently, I've been engaged as a designer to assist with the company's rebranding. My work involves drafting and developing the CV and tender templates, slide decks and other documents in line with the official brand guide.

APR 2021 - PRESENT

DVNSW - Volunteer Graphic Design Intern

As a Graphic Design Intern, I volunteer my experience in design to help broaden the reach of DVNSW's messages and information across website and social media platforms. Through volunteering for DVNSW, I'm able to actively pursue my own goal of making a meaningful contribution to the community.

MAR 2019 - PRESENT

InfraSol Group - Document Development Officer

In this role, I am mainly responsible for assisting in the tendering process. My responsibilities include editing documents to ensure grammatical structure and accuracy, formatting documents to match the company style, delivering them in a timely manner, as well as handling administrative tasks where necessary.

CAREER HIGHLIGHT: JUN 2019 - DEC 2019

John Purchase Public School - Graphic Designer

I was in charge of creating the 120 paged 2019 yearbook for JPPS. This task was especially challenging but also very rewarding, as it not only required strict time management and organization, but also gave me an opportunity to put my design skills into practice. This project was a proud achievement, as the JPPS 2019 yearbook was the first yearbook to follow modern aesthetics and design in a way that was both playful and professional.

FEB 2020 - FEB 2020

USYD Graduate Edge Careers Program (Certified on completion)

I participated in a competitive entry program run by the University of Sydney. Aimed to expose students to the opportunities available to us after graduation, this program entailed a week full of interactive workshops with leading industry partners such as KPMG, PWC, Deloitte, EY, Frank Team, LinkedIn and Salesforce. I was able to develop professionalism, enhance my networking skills and also learn that every individual owns diverse strengths.

DEC 2018 - DEC 2020

Private English Tutoring

Over the last couple of years, I've taken time to provide private English tutoring for both primary and high school students. My goal was to help better my students' performance at school and enhance their understanding of the language in terms of grammar, sentence structure, essays and creative writing.
